

Silver Task List	Completed
Can you find some activities or tasks that could be put online for other pupils to take part in. Perhaps put on your school website or social media accounts.	
Plan and create a series of activities that could be run in a primary school. You could focus on one sport or activity. Have it all planned out so it could be run in the future.	
Create a personal challenge to encourage students to better their own scores at home.	
Create a competition that could be completed at home. E.g. Speed stacking competition, how many times keepy-uppys can you do?	
Work together as a team to put a bank of ideas together for the school website that students can complete while working at home.	
Write a “how to” guide for sports leaders next year. What went well, what could be different.	
Design a questionnaire that could get pupils opinions of sport throughout the school. This could be completed when everyone is back at school or completed online.	
Work with your teachers to help promote a healthy lifestyle on the schools social media pages. This could link to the #StayInWorkOut activities or looking at healthy meals that can be made at home.
