

VOLUNTEER WANTED

RUGBYSAFE LEAD

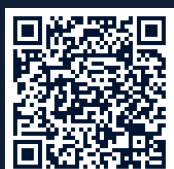

Have an interest in Hertford RFC and player safety? We need you as our **RugbySafe Lead**.

Maybe you've sat on a committee before, run a section of a club, have an interest in player safety standards, and had your fair share of dealings with the RFU over the years. If Hertford RFC already – or could feel like – home ground in the future, then this role could be a great fit.

Hertford RFC is looking to fill its RugbySafe Lead – one of the RFU's required **"golden roles"** for every affiliated club. You'd be:

THE ROLE	YOU'D BE
COMPLIANCE	Leading the club's compliance with RFU Regulation 9 (Player Safety) standards.
WELFARE	Owning our approach to player welfare – including concussion awareness (HEADCASE) and pitch-side first aid / immediate care provision.
RFU LIAISON	Liaising directly with our Constituent Body RugbySafe Lead and navigating RFU guidance, tools and reporting with confidence.
COMMITTEE	Working with the committee to embed good practice, using your existing knowledge of how things get done at Hertford.

A chance to participate in a key role for the club, shaping safety standards with players from **mini's through to seniors**, without a steep learning curve. Full support will be given.
